Ben -

I wanted to make sure that you are aware of the scheduled conference call this afternoon regarding the NM nutrient project. The times listed are CDT. Additionally, I wanted to mention that I was finally able to reach Phil Kaufman who as I thought has been quite busy with the NRSA assessment and report but just completed his portion and indicated he would spend today and tomorrow reviewing the bedded manuscript getting his review to you hopefully tomorrow. He will be out of town next week but we can talk the first week of August and get this back on track once again.

Hope that you will be on this afternoons call. If you need to reach me today, please call me on my mobile.
